

## Phosphorylethanolamine (Standard)

Catlog Number: MDP-12085

### • Basic Information

|                  |                                                                                              |
|------------------|----------------------------------------------------------------------------------------------|
| CAS No.          | 1071-23-4                                                                                    |
| Synonyms         | Monoaminoethyl Phosphate (Standard); NSC 254167 (Standard); O-Phosphoethanolamine (Standard) |
| Molecular Weight | 141.06                                                                                       |
| Formula          | C <sub>2</sub> H <sub>8</sub> NO <sub>4</sub> P                                              |
| Appearance       | Solid                                                                                        |
| Color            | Off-white to light yellow                                                                    |
| SMILES           | NCCOP(O)(O)=O                                                                                |
| Intended Use     | For research use only.                                                                       |

CD BioSustainable

### • Package and Storage

Storage: Please store the product under the recommended conditions in the Certificate of Analysis.

CD BioSustainable is a reputable and professional company in the industry. We provide high-level technical services and total solutions to deliver only the most satisfactory results for our clients.
