

Aerocyanidin

Catlog Number: MDP-23453

• Basic Information

CAS No.	113701-99-8
Molecular Weight	283.36
Formula	C15H25NO4
SMILES	<chem>OC(CCCCCCCC[C@H]([C@]1([H])[C@@](C)(O1)[N+][C-])O)=O</chem>
Intended Use	For research use only.

CD BioSustainable

• Package and Storage

Shipping: Room temperature.

• Product Features

- High-purity aerocyanidin suitable for research and industrial applications.
- Derived from natural sources, ensuring authenticity and reliability.
- Consistent quality and performance in various chemical and biological assays.

• Product Advantages

- Antibiotic Properties: Effective against Gram-positive bacteria, with potential applications in pharmaceutical research.
- Versatility: Suitable for a variety of applications in biochemistry and microbiology.
- Stability: Maintains stability under proper storage conditions, ensuring long-term usability.
- Customizable: Available in various quantities and packaging options to meet specific needs.

• Product Applications

CD BioSustainable is a reputable and professional company in the industry. We provide high-level technical services and total solutions to deliver only the most satisfactory results for our clients.

Tel: 1-631-637-0420; 1-631-533-0595
Email: info@sustainable-bio.com
SUITE 206, 17 Ramsey Road, Shirley, NY 11967, USA

Aerocyanidin

Catlog Number: MDP-23453

- Pharmaceutical Research: Investigating the antibiotic properties and potential therapeutic applications.
- Biochemistry: Studying the mechanism of action and interactions with biological systems.
- Microbiology: Researching the effects on bacterial growth and resistance mechanisms.
- Environmental Science: Exploring the ecological impact and potential bioremediation applications.

CD BioSustainable is a reputable and professional company in the industry. We provide high-level technical services and total solutions to deliver only the most satisfactory results for our clients.
