

Neodymium oxide spherical Nd_2O_3

Catlog Number: NO-9966

• Specifications

Size: 1 μm 1000 g

Form: Powder

Density: 7.24 g/cm^3

Melting Point: 1900°C

Average Particle Size: 1 μm

Purity: 99.9%

Specific Surface Area: 16 m^2/g

Bulk Density: 0.72 g/cm^3

Crystaltype: Spherical

Color: Lilac

CD BioSustainable

• Applications

This product can be used in rubber products, additives, biomedical products, colorants for glass and ceramics.

• Storage

This product is kept sealed in a dry, cool environment and should not be exposed to air for a long time.

• Product Features

High purity, uniform particle size distribution

Easy to moisture, absorb carbon dioxide in the air

Insoluble in water, soluble in inorganic acids

CD BioSustainable is a reputable and professional company in the industry. We provide high-level technical services and total solutions to deliver only the most satisfactory results for our clients.
